-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 4, 9-11, 14, 16, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Younick.

Younick shows an apparatus for applying upward pressure to an object. The apparatus includes a first means 6, an elongated rod 1, a second means 4, and a third means 7. Since the Younick device is a “wrecking bar”, the examiner takes Official Notice that wrecking bars are commonly made from steel and that steel would have the strength characteristics recited in the claims.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 5, 12, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Younick in view of Morgen and Christensen et al.

Morgen teaches that various object and user hand engaging portions of the lifting lever may include grips or caps to cover the extremities of these engaging portions. To provide grips or caps on any of the engaging portions of Younick would have been obvious for one skilled in the art at the time the invention was made in view of the disclosure of Morgenberger.

Christensen et al teaches that the object engaging portions of a lever may be made from rubber or plastics. The examiner takes Official Notice that a common plastic is polyethylene. To make any engaging portion in Younick from polyethylene would have been obvious at the time of the invention in view of the teachings of Christensen et al.

Claims 6-8, 13, 17-26, and 28-29 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 11/21/05.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert C. Watson whose telephone number is 571 272-4498. The examiner can normally be reached on Mon. - Thurs. , 5:30am - 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph J. Hail III can be reached on 571 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
